Cher(e)s Collègues,

<http://euramonline.org/programme2017/tracks/sig-01-business-for-society-b4s.html>

L'objectif de ce track est d'étudier les problématiques liées à la comptabilité élargie, au reporting extra-financier et au contrôle de gestion. Il s'agit également de comprendre l'impact de ces outils de gestion sur l'entreprise, son organisation, ses personnels et, plus largement, ses parties prenantes. En fonction du volume de communications reçues, un ou plusieurs numéros spéciaux dans des revues académiques seront envisagés.

Global Performance and Integrated Reporting: « *The landscape of corporate reporting is changing quickly. The concepts, elements and principles that characterise the way organisations plan, manage and report their annual performances are currently being questioned, debated, and redesigned throughout the world. However, widening the scope of corporate performance and reporting is a major issue. Research needs to bridge the gap between social and financial performance by considering corporate performance in a wider perspective. The objective of this track is to collect significant contributions that answer some of these questions and provide original insights on measurement, accounting, reporting and control could evolve.* »

La date limite de soumission est le 10 janvier 2017.
